Summary of the Tir Accord Ceasefire Agreement on Rubi-Ka between the Omni-Tek Corporation (leaseholders of Rubi-Ka, and henceforth referred to as Omni-Tek) and the Council of Truth (governing body of the united, independent clans of Rubi-Ka, and henceforth referred to as the Council)

Fact Sheet Released by the Office of the Spokesperson, July 5th 29470

The Tir Accord talks culminated in a Framework Agreement for a ceasefire between the two disputing parties of Omni-Tek and the Council. Agents for the ICC initiated and witnessed the signing of the Accord.

Interstellar Confederation
of Corporations

The Tir Accord ceasefire Agreement and its Annexes are summarised below:

General Framework Agreement.

- Omni-Tek and the Council agree to fully respect every aspect of this agreement and its annexes, and to settle any dispute by diplomatic and peaceful means.
- Omni-Tek recognise the Council as the Governing body, and spokesperson for all clans affiliated with it, and its right to negotiate, and speak for the clans. In turn the Council recognises Omni-Tek as the superior governing body of Rubi-Ka as documented in the ICC lease of 28708.
- The parties agree to fully respect and promote fulfilment of the commitments made in the various Annexes of this Accord.
- The parties agree to cooperate in the implementation of this Accord and the resulting cease-fire, and to mutually investigate and prosecute any violation of the Accord and its Annexes.
- This agreement is between Omni-Tek and the Council only, and any personnel not affiliated with either Omni-Tek or the Council is considered under Omni-Tek control, and subject to Omni-Tek law.

Annex 1A: Territorial Division

- Omni-Tek is the superior governing body of the entirety of Rubi-Ka, but will leave to the Council to supervise the areas of Tir, Tir County, Athen, Athen Shire, Aegan, Northern Artery Valley, The Big One, Avalon, Mort, Newland, and Western Endless Plains.
- The remaining terraformed areas on the planet will remain under complete Omni-Tek control and subject to the ICC lease of 28708.
- Council-affiliated parties will remain in their allocated districts where they are subject to Council supervision. The moment they enter Omni-Tek controlled areas, they will be subject to Omni-Tek law and control.
- The Council and its affiliates will remain within the area they have been allocated, and will cease any expansion in their territorial claim.

Annex 1B: Resources and Resource Management.

- The Council and its affiliates will control, and are free to administer in whatever way they see fit, all natural resources in their allocated districts, with the exception of notum.
- Omni-Tek will remain in control of existing notum mines in Council-allocated districts.
- Any new discoveries of notum in Council-allocated districts are free to be mined by Council-affiliated organisations.
- Any notum extracted under Council administration will be shipped directly, and in its entirety, to Omni-Tek storage, compensated by Omni-Tek according to current, floating ICC rates.
- Omni-Tek is obligated to supply the Council with state of the art mining equipment, compensated by the Council according to current, floating ICC rates.
- Omni-Tek is not to set up additional resource mining in Council-allocated districts.
- Council affiliates will not disturb existing Omni-Tek notum mining in their allocated districts.

Annex 2A: Military Presence.

- Omni-Tek military will not operate within the Council-allocated district with exceptions:
Exception 1: Omni-Tek will be allowed standard security forces present at their notum mining facilities.
Exception 2: Omni-Tek will be allowed standard security forces to accompany any shipment of notum from their facilities in the Council-allocated districts.
- The Council and affiliated military forces will not operate in Omni-Tek controlled districts. Any stray personnel and material will be considered the direct property of Omni-Tek, for it to administer as it sees fit.
- The Council and affiliated military forces will respect the legality of standard Omni-Tek security forces in Council-allocated districts as described in the exceptions above.
- Omni-Tek and the Council should, jointly, investigate any hostile action towards the legally present Omni-Tek personnel by the Council and affiliated troops. Should there be a breach of the aforementioned premises, centralised Omni-Tek peacekeeping troops may be issued after consultation with the Council.

Annex 2B: Police and Investigation.

- The Omni-Tek police department (Omni-Pol) will be allowed to run routine investigations inside the Council-allocated districts in the interest of national security.
- The number of Omni-Pol personnel present in Council-allocated districts at any given time have to be accounted for by Omni-Tek in consultation with the Council.
- Any additional Omni-Pol activity in Council-allocated districts not considered a matter of national security has to be sanctioned by the Council.

- No Council or affiliated personnel within the boundaries of Council-allocated districts may be available for Omni-Pol questioning without the prior consent of the Council.

Annex 3: Treatment of Prisoners and Displaced Persons.

- Any Council and affiliated personnel located in the districts controlled by Omni-Tek or found in violation of this accord and its annexes, are to be considered outlaws, and subject to imprisonment and trial by Omni-Tek.
- Imprisonment of any Council, or affiliated, personnel will be reported to the Council, and Omni-Tek's treatment of any such personnel will comply with ICC regulations described in the standard planetary lease.
- Any Omni-Tek personnel violating the agreed-upon presence in Council-allocated districts, or any premise set forth in this accord and its annexes, are to be taken captive by Council-affiliated troops, and sent back to Omni-Tek to stand corporate trial as described in the standard ICC planetary lease.
- Any Omni-Tek personnel taken captive by the Council must be treated according to ICC standard regulations as described in the standard planetary lease upon being surrendered to the Omni-Tek corporate court.

Amendment to the Tir Accord Annex 1B: Resources and Resource Management. Amended August 11th 29470.

- All mining activity in Council-allocated districts will be abandoned by Omni-Tek within sixty (60) days, and after that be administered by the Council. The resulting produce will be subject to the original agreement as described in Annex 1B, point four (4).

Amendment to the Tir Accords Annex 2A: Military Presence. Amended August 11th 29470.

- All military presence earlier associated with security in the Omni-Tek controlled mines in Council-allocated districts, is to be withdrawn within sixty (60) days.
- Omni-Tek standard security forces associated with notum shipment will still be allowed to pass through Council-allocated districts.
- Omni-Tek will be allowed a standard security force at the outpost of MeetMeDere in the interest of national security, and the containment of local wildlife.
- The Council will grant Newland City neutral status within sixty (60) days.
